

HERE I GO AGAIN

Who would have ever thought that one day we'd be torn apart
I used 2 love U every minute every beat of my heart
Who would have ever said that U & me one day
could have turned our backs 2 go seperate ways

Here I go again, I know it's crazy but,
it's driving me insane 2 know you're not around...
& I can't stand the thought of spending one more night without U!

I keep singing the songs that U used 2 love so much
& I reminisce of every moment every touch
I think I'm here 2 tell U that I want U back
cuz' I can not forget about the good times that we had

Here I go again.....

HI ON U

Coming off you is the hardest thing to do cuz I'm hooked on you
You're so good, you're so good, you're the worst thing for me,
so why oh why do I fall for you
I'm a fool for your touch when u give me so much

I get high on u
there's no other drug that can get me thru'
I get high on u
there's no other drug that can get me thru'

Use and abuse I get high on your supply don't know why don't know why
Maybe strong maybe weak, be the junkie for you I've fallen I've fallen so deep

I feel lower than low
But I'm bolder than bold...When I get
I get high on u
there's no other drug that can get me thru'
I get high on u
there's no other drug that can get me thru'

Stupid rhymes won't get me by
The naked truth lies in your eyes
I see you,
would I be blinded without you?

I KNOW

believe in what they say and they will make u pray
u be on your knees tryin to find a better way
they say it's for a cause but I don't wanna hear it
It's nohing but illusions & i think u know it
i think u know it
some travelled a long way 2 be with u 2day
Do they even know what they came here 2 say
no, they only like 2 play with your mind
some of them even like it from behind from behind

I know only what I know
I know all that glitters can't be gold
life's to short to waste that's all I know
cuz the streets they tell me so

Im talking to myself the only way 2 do it
I'm here on my own & I don't wanna blow it
I've got 2 use my voice
2 cry out loud I want 2 make some noise
make some noise
there are so many reasons a revolution
but tell me where is the solution
cuz even if we have things 2 say say
people will get tired of talking one day

SACRIFICE

What if you were not that special person that you are
What if I had 2 put an end 2 things that I thought went 2 far
I am not expecting U 2 understand me
No it's only how I feel...
It was precious 2 me, but far from real, far from real

And when I'm not the solid man that I'm trying 2 be,
tell me who can I blame then?
Everything that I believe in is a joke,
that's when I think I need a smoke...
So precious 2 me, but my heart is broken,
my heart is broken...

I can hear U wisper my name
I can feel U reaching out for me again
But I don't wanna play more games
cuz things will never be the same
(we sacrifice)

And what if we will never even live 2 see the day
Then all this would'nt matter anyway
Time is so short but o so long
now when it's all over and done
It's so precious 2 me, though I was wrong,
yes I was wrong

NEVER MIND

she left me with a memory
of how sweet it used 2 be
now its all gone and i have nothing to loose
i hang my head to cry and i put on the blues

never mind never mind i was blind

i close my window and lock my door
i dont feel like getting out no more
it hurts so bad yes to feel this way
ill be allright but its not gonna be today

never mind never mind never mind

i would have given so much love to you
now you're gone there's nothing i can do
i feel helpless in my search for something new
never mind never mind never mind

I STILL LOVE YOU

I know I haven't been myself for a while & i know,
u're the reason 4 me feeling so low I turn the page,
with no regrets cuz I know how love it comes & goes (isay)
It was perfect at the time & if I could rewind,
i would do it all over & over & over & over again
I wouldn't change a thing cuz everything so real it is something,
that I still believe in

I love you - & even if I try 2 - I can't stop thinkin of you
I love you - I just wanna tell that I'll always be there for you....
I love you
yes I - I - I - yea - e - yea....LOVE you!!

I've twistin, turning, aching & hurting, trying 2 forget
still I have a feeling I will find myself in some funny way
Cuz I feel stronger then ever I'm smiling at the world,
the feeling is real, the feeling is real, the feeling is real
and what we have or had my love,
is something that nobody can steal

I love you - & even if I try 2 - I can't stop thinkin of you
I love you - I just wanna tell that I'll always be there for you
yes I - I - I - yea - e - yea....LOVE you!!

ALIENS

now if i understand what you say i need to be a man
it's quite a lot you know in this world where everything is so so so
so material and that's only the first thing i can think of
do we need this much to live this only life we get to live
too much violence and far far too much greed
we feed on hate when love is what we really need

will it take aliens from out of space
to make us stand and fight united as one human race?
will it take aliens from out of space
to make us stand and feel united as one human race?

should we laugh or should we cry or just kill eachother til we all die
or should we try try to stop this burning fire
we are wasting so much power just to end where we begin
wake up from this dream this is a war noone can win!

will it take aliens from out of space
to make us stand and fight united as one human race?
will it take aliens from out of space
to make us stand and feel united as one human race?

THE SMILE ON MY FACE

I like staring at walls, I like doing nothing all day
Fun is when I wet my hair, in the evening rain
What's the point in waiting, if there's no train?
I rewind and I fast-forward, I pause and I play

If U wanna find me "Here I am"
Seven hours gone and I'm still waiting
Waiting at the same place
can you put a smile on my face?

I'm always in a hurry, but I never rush
I've got many things 2 say, but I never talk 2 much
I like 2 study other peoples moves
I'll be one step behind, but I'm not pushing you

If U wanna find me "here I am"
Seven days has gone but I'm still standing
Waiting at the same place
can you put a smile on my face

So go ahead, bring your problems on T.V
A word became a poem that I never had time 2 read
I'm just waiting at the same place,
and I still have a smile on my face

Now if U wanna find me "here I am"
Seven languages can understand
And I'm waiting at the same place
can you put a smile on my face

Yes, keep smiling!!

I CAN'T SEE TOMORROW

A little bit of lonlyness could never hurt noone
Time to get to know ourselves cause we forget sometimes
If you're sad in London you'll be sad in New York too
u're looking for an answer when its right inside of u

I take a long walk when I wanna be alone
& I feel much better when I come back home
It's like recharging the batteries in my brain
I have to be alone for a while 2 find myself again

I can't see tomrrow
Where will tomorrow go?
I can't see tomorrow
Maybe I'm not supposed to know...

I walk around the neighbourhood & what do I see
Not much more than the dirty road under my feet
How did I end up here How long will I stay?
is my place on earth still far away?

I think I need the silence
I want to breath the silence
Cuz I get to a point when I don't know
....where to go anymore

DESTINY

Let me tell U straight-I'm not here 2 play no game
I'm living my life-driving down the fast lane
A little more speed is all I need
There will be no flowers if I don't sow my seeds
Will I get arrested, will it affect me?
Still I see no reason for you to disrespect me
I do what I can, i try 2 be an honest man,
but I can see the future slipping thru' my hands
And I don't understand, will I ever get a chance
I'm here on my knees begging 4 another dance
But if U think I'm easy, do not tease me,
cuz I know what I want, I don't believe in destiny

you can call it destiny but i don't believe in "what will be will be"
The future might not be ours too see but a part of it is up to you and me!

U can call it destiny but I'll do my best U see
I won't just sit back thinking "it was meant 2 be"
I can see the end but I still wanna be your friend
Although I can feel the bad vibes that U send me
Now I picture U-What U gonna do?
I'm pretty sure you're feeling lonely 2
U drank it up when U were thirsty
& now when I feel dry there's nothing left 4 me
But it's no sin just let it begin
If it's a battle well the strongest man will win
& I'll be there with the power of my hair
Just like Samson on top of the stairs
Yes if U think I'm easy, don't U tease me
I know who I am & I don't believe in destiny

you can call it destiny.....

you wanna see the world I see you looking at the map
But you can't just sit around waiting 4 things 2 happen
If you're afraid 2 do it, afraid 2 go there
Well that's the kinda attitude that will take you nowhere
I don't wanna say that there will come a day
When everything is cool & everything will come your way
But don't take it easy, learn to know your enemy
Believe in yourself, don't believe in destiny

you can call it destiny.....
